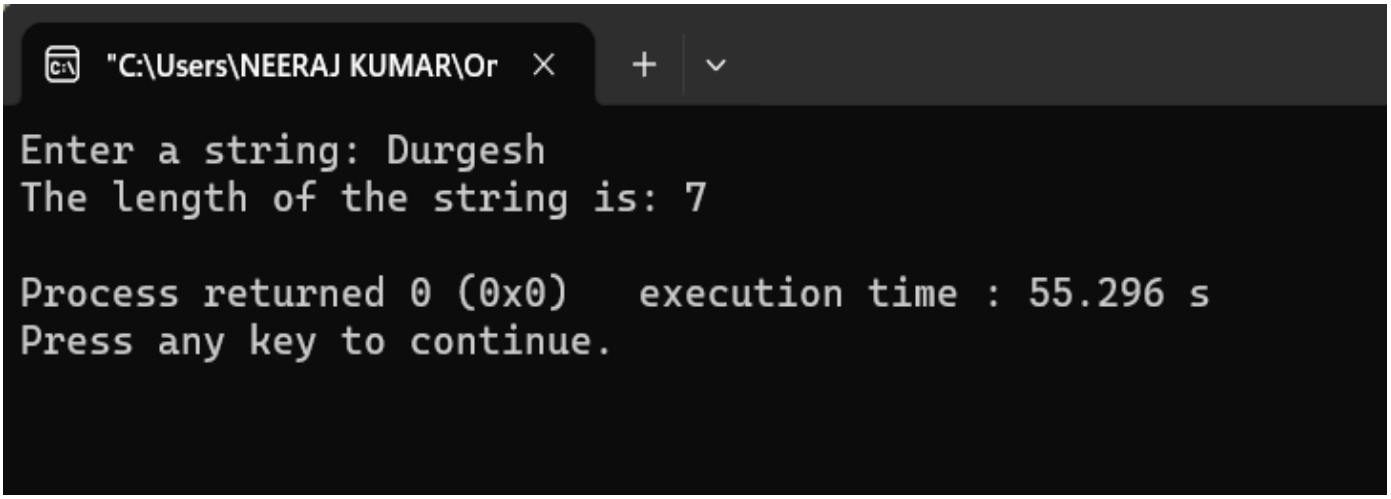
Program :

```
#include <stdio.h>
int main() {
char str[100];
int length = 0;
printf("Enter a string: ");
scanf("%s", str);
// Iterate until null terminator '\0'
while(str[length] != '\0') {
length++;
}
printf("The length of the string is: %d\n", length);
return 0;
}
```


Output :
